OCCUPATIONAL HEALTH

*Same Ownership. Same Family - Just a New Name!*

## Creating A Healthy Environment

Today, employers are required to take more responsibility for safe work environments. Few companies have the expertise or the resources to analyze, design and establish the necessary preventive and treatment oriented health care programs.

## Occupational Health Services

Suncoast and Trinity Urgent Care offers Occupational Health services with cost-effective solutions. Our customized Occupational Health services can benefit your company by increasing productivity and improving morale while lowering health care and overall production costs.

## Board Certified Professionals

Suncoast Urgent Care's Occupational Health program offers board certified physicians, nurses, consultants and other knowledgeable and experienced professionals. Together, we will help you set specific health and safety goals and medically manage injury cases to keep your Workers' Compensation insurance costs low.

## Workers' Compensation

### Injury Treatment

Suncoast Occupational Health believes in an Early Intervention approach - Early Treatment, Early Therapeutic Intervention and Early Return to Work activity. This model is known to produce better outcomes for the patient, the employer and the payor alike. Our goal is to treat your injured worker and return them to the job site as quickly and safely as possible.

We take great measures to communicate with your company and your insurance carrier every step of the way. For example, depending on your needs, after your employee's visit, we provide a completed DWC25 form. We can also provide a physician's report that diagnoses the injury, advises work limitations and outlines follow-up care.

### Physical Therapy

We maintain close relationships with nearby Physical Therapy and Rehabilitation programs.

Because of our relationships within the local communities, you can be confident that financial incentives will never be factored into your employee's need for physical therapy treatment. Suncoast

Occupational Health is completely unbiased. We will, just as with other specialty referrals, make the appropriate diagnosis and refer your employee accordingly.

## Occupational Health Services
